TABLE OF CONTENTS

NUMBER 1, NOVEMBER 1972

Younkin, L H, In vitro response of lymphocytes to phytohemagglutinin (PHA) as studied with antiserum to PHA. I. Initiation period, daughter-cell proliferation, and restimulation 1

Fiume, L, Nardi, I, Bucci, S & Mancino, G, Effects of cordycepin on morphology and RNA synthesis of amphibian lampbrush chromosomes 11

Fukuyama, K & Epstein, W L, Synthesis and turnover of protein(s) in nucleoli during epidermal keratinization 15

Vaughan, M H, Comparison of regulation of synthesis and utilization of 45S ribosomal precursor RNA in diploid and heteroploid human cells in response to valine deprivation 23

Brautbar, C, Payne, R & Hayflick, L, Fate of HL-A antigens in aging cultured human diploid cell strains 31

Wulff, U C, Desai, L S & Foley, G E, Human leukemic cells. Fractionation and characterization of ribonucleic acids 39

Griffiths, J B, Role of serum, insulin and amino acid concentration in contact inhibition of growth of human cells in culture 47

Friedman, H I & Cardell, Jr, R R, Morphological evidence for the release of chylomicra from intestinal absorptive cells 57

Sällström, J F & Alm, G V, Binding of concanavalin A to thymic and bursal chicken lymphoid cells 63

Comings, D E & Tack, L C, Similarities in the cytoplasmic proteins of different organs and species examined by SDS gel electrophoresis 73

Shirai, H & Kanatani, H, 1-Methyladenosine ribohydrolase in the starfish ovary and its relation to oocyte maturation 79

Andersen, H A, Requirements for DNA replication preceding cell division in *Tetrahymena pyriformis* 89

Vogel, F S & Waever, R F, Concerning the induction of dormancy in spores of *Agaricus bisporus* 95

Clothier, G & Timourian, H, Calcium uptake and release by dividing sea urchin eggs 105

Legname, C & Goldstein, L, Proteins in nucleocytoplasmic interactions. VI. Is there an artefact responsible for the observed shuttling of proteins between cytoplasm and nucleus in *Amoeba proteus?* 111

Hilwig, I & Gropp, A, Staining of constitutive heterochromatin in mammalian chromosomes with a new fluorochrome 122

Curgy, J-J, Mitochondrial RNA synthesis during meiotic divisions in locust male germ cells 127

Nossal, R, Growth and movement of rings of chemotatic bacteria 138

Marmaras, V J & Sekeris, C E, Pattern and activity of polyribosomes from the integument of blowfly larve during development. Stimulation of polyribosome formation with β-ecdysone 143

Cionini, P G & Avanzi, S, Pattern of binding of tritiated actinomycin D to *Phaseolus coccineus* polytene chromosomes. I. Nucleolus organizing chromosomes 154

Gasko, O & Danon, D, Deterioration and disappearance of mitochondria during reticulocyte maturation 159

Everhart, L P & Prescott, D M, Reversible arrest of Chinese hamster cells in G1 by partial deprivation of leucine 170

Keast, D & Birnie, G D, In vitro studies on the nucleic acid metabolism of murine peritoneal cells 175

Roos, D, de Boer, J E G, Huismans, L & Boom, A J, Dose response of lymphocyte carbohydrate metabolism to phytohaemagglutinin 185

Morris, G E & Cole, R J, Cell fusion and differentiation in cultured chick muscle cells 191

Burns, V W F, Location and molecular characteristics of fluorescent complexes of ethidium bromide in the cell 200

Simchen, G, Piñon, R & Salts, Y, Sporulation in *Saccharomyces cerevisiae*. Premeiotic DNA synthesis, readiness and commitment 207

Hajdu, I, Holub, M & Trebichavsky, I, The sequence of appearance of antibodies in mouse omentum plasma cells 219

Auer, G, Nuclear protein content and DNA-histone interaction 231

Auer, G, Cytochemical properties of nuclear chromatin as demonstrated by the colloidal iron binding technique 237

Auer, G & Zetterberg, A, The role of nuclear proteins in RNA synthesis 245

Birbeck, M S C, Johns, E W, Robertson, D & Connors, T A, Autoradiographic study of the F2C histone effect on ascites tumour and other cells 254

PRELIMINARY NOTES

Loir, M & Wyrobek, A, Density separation of mouse spermatid nuclei 261

Sinha, A K, Kakati, S & Pathak, S, Exclusive localization of C-bands within the opossum sex chromosomes 265

Burkholder, G D & Comings, D E, Do the Giemsa-banding patterns of chromosomes change during embryonic development? 268
Wahren, B, Lampert, F & Goetz, O, Herpes viruses and chromosomal alterations seen with light and whole-mount electron microscopy 271
Hoehn, H & Martin, G M, Heritable alteration of human constitutive heterochromatin induced by mitomycin C 275
Goldstein, S & Singal, D P, Loss of reactivity of HL-A antigens in clonal populations of cultured human fibroblasts during aging in vitro 278
Reid, I M & Isenor, R N, Effect of starvation on nuclear bodies and rough endoplasmic reticulum in bovine hepatocyte 282
Rustad, R C & Greenberg, M A, Prefertilization stimulation of sea urchin eggs can "cure" radiation-induced mitotic delay 285
Noble, P B & Peterson, S C, A two-dimensional random-walk analysis of aggregating sponge cells 288
Marin, G & Manduca, P, Synchronous replication of the parental chromosomes in a Chinese hamster-mouse somatic hybrid 290
Sheppard, J R & Prescott, D M, Cyclic AMP levels in synchronized mammalian cells 293
Timourian, H, Clothier, G & Watchmaker, G, Cleavage furrow. Calcium as determinant of site 296
Berger, R, Étude du caryotype du porc avec une nouvelle technique 298
Lee, M Y W & Iverson, R M, Protein kinase in sea urchin gametes and embryos 300
Sumner, A T, A simple technique for demonstrating centromeric heterochromatin 304

NUMBER 2, DECEMBER 1972

Modak, S P & Bollum, F J, Detection and measurement of single strand breaks in nuclear DNA in fixed lens sections 307
Highfield, D P & Dewey, W C, Inhibition of DNA synthesis in synchronized Chinese hamster cells treated in G1 or early S phase with cycloheximide or puromycin 314
Nordby, Ø & Hoxmark, R C, Changes in cellular parameters during synchronous meiosis in *Ulva mutabilis* Føyn 321
Kirkness, C M & Macdonald, A G, Interaction between anaesthetics and hydrostatic pressure in the division of *Tetrahymena pyriformis* W 329
Lagunoff, D & Curran, D E, Role of bristle-coated membrane in the uptake of ferritin by rat macrophages 337
Wise, G E, Stevens, A R & Prescott, D M, Evidence of RNA in the helices of *Amoeba proteus* 347
Gospodarowicz, D & Gospodarowicz, F, Bovine luteal cells in tissue culture 353
Quash, G, Gresland, L, Delain, E & Huppert, J, Antipolyamine antibodies and cell lysis. The inhibitory effect of putrescine 363
Akifjev, A P & Aingorn, E D, DNA synthesis related to genome activation in human lymphocytes cultured in vitro 369
Hemminki, K, Preparation of viable and morphologically intact cells from newborn rat brain 379
Kondo, H & Koshihara, H, Immunological studies on the 26S particles of sea urchin eggs 385
Shepherd, G R, Noland, B J & Hardin, J M, Turnover of histone acetyl groups in cultured mammalian cells 397
Watson, B, Gormley, I P, Gardiner, S E, Evans, H J & Harris, H, Reappearance of murine hypoxanthine guanine phosphoribosyl transferase activity in mouse A9 cells after attempted hybridisation with human cell lines 401
Andersson, J & Darżynkiewicz, Z, Nucleoprotein changes and uridine incorporation in rat thymus lymphocytes. I. Cellular characterization of age-dependent thymus involution 410
Andersson, J & Darżynkiewicz, Z, Nucleoprotein changes and uridine incorporation in rat thymocytes. II. Effect of treatment with anti-thymocyte serum in vitro 417
Berns, M W, Floyd, A D, Adkisson, K, Cheng, W K, Moore, L, Hoover, G, Ustick, K, Burgott, S & Osial, T, Laser microirradiation of the nucleolar organizer in cells of the rat kangaroo (*Potorous tridactylis*). Reduction of nucleolar number and production of micronucleoli 424
Fansler, B & Loeb, L A, Sea urchin nuclear DNA polymerase. IV. Reversible association of DNA polymerase with nuclei during the cell cycle 433
Djondjurov, L, Markov, G & Tsanev, R, Distribution of tryptophan containing proteins and of newly synthesized RNA in metaphase chromosomes. An autoradiographic study 442
Sherman, M I, Biochemistry of differentiation of mouse trophoblast: Esterase 449
Tobey, R A & Crissman, H A, Preparation of large quantities of synchronized mammalian cells in late G1 in the pre-DNA replicative phase of the cell cycle 460
Wells, J R & James, T W, Cell cycle analysis by culture fractionation 465
Stein, M D, Sage, H J & Leon, M A, Studies on phytohemagglutinin from a common lentil. VI. Stimulation of human peripheral lymphocytes in culture by *Lens culinaris* hemagglutinin A 475
Fujiwara, Y, Characteristics of DNA synthesis following ultraviolet light irradiation in mouse L cells. Postreplication repair 483
Zirkin, B R & Kim, S-K, Fine structure of fibers in thin sections of condensed chromatin 490
Burkholder, G D, Okada, T A & Comings, D E, Whole mount electron microscopy of metaphase. I. Chromosomes and microtubules from mouse oocytes 497

PRELIMINARY NOTES

Fritts-Williams, M L & Meyer, D B, Isolation and culture of homogeneous populations of primordial germ cells in chick 512
Nishimune, Y & Komatsu, T, Temperature-sensitivity of mouse testicular DNA synthesis in vitro 514
Bacalao, J & Rieber, M, Modified distribution of some cyclic AMP phosphodiesterase activities following growth of L cell fibroblasts in the presence of prostaglandin E1 518
Mace, M L, Tevethia, S S & Brinkley, B R, Differential immunofluorescent labeling of chromosomes with antisera specific for single strand DNA 521
Huet, C & Garrido, J, Ultrastructural visualization of cell coat components by means of wheat germ agglutinin 523
Brahma, S K & van der Saag, P T, Studies on biosynthesis of soluble proteins in early amphibian development by isoelectric focusing in thin layer polyacrylamide gel 527
Rothstein, H, Reddan, J, Harding, C V, Rosenbaum, D & Unakar, N J, Influence of the iris upon the sorting out of mitotic and non-mitotic cells in cultured vertebrate lenses 530
Seljelid, R, Melsom, H & Munthe-Kaas, A, Lytic effect of mouse macrophages on red cells 534
Billington, R W & Itzhaki, R F, Low molecular weight RNA in lymphocytes of chronic lymphocytic leukemia 536
Berg, W E, Some characteristics of the morphogenic inhibitor in the blastocoelic fluid from the sea urchin embryo 539
Caspersson, T, Haglund, U, Lindell, B & Zech, L, Radiation-induces non-random chromosome breakage 541
Caspersson, T, Issler, P & Lomakka, G, A TV-based technique for optical analysis of chromosome regions 543
